### Need help to complete the Payment ?

#### Five easy steps to complete your Amazon Transaction:

1. Buyer and Seller agree to terms: Both parties agree to terms of the transaction, which includes a description of the item, sale price and number of days for the buyer's inspection.
2. Buyer sends payment to Amazon: Amazon will secure the payment until the Buyer receives, inspects and accepts the product. Processing time for payments is 12 - 24 hours.
3. Seller send item to Buyer: Upon payment verification, Seller ship the item.
4. Buyer receives item: The Buyer has 5 days to verify the product and the option to accept or reject.
5. Amazon pays Seller: Amazon pays the Seller. The transaction is complete. If the Buyer is not satisfied, he must notify our agency with the item issues, after the inspection period. A solution to most problems can usually be negotiated between the Buyer and Seller. If this is not possible, the buyer will receive the money from our trust account. In case the Buyer refuse to continue the transaction with the Seller from other reasons, our agency will return the funds to the Buyer in maximum 1-3 days depending by his location.
